LEGISLATION

Ordinances:

Ordinance No. 7-16

Item a)

AN ORDINANCE AUTHORIZING AND DIRECTING THE MAYOR TO ADVERTISE FOR BIDS AND ENTER INTO CONTRACTS FOR THE ANNUAL PURCHASE OF SUPPLIES AND MATERIALS FOR THE CITY OF ASHLAND, OHIO; AND DECLARING AN EMERGENCY.

Moved by Mrs. Tunnell and seconded by Mr. Valentine to invoke Section 113.01 of the Codified Ordinances as the distribution of the Ordinance has satisfied the requirements of said Section and that a further reading be dispensed with at this time.

Ayes: Mr. Fishpaw, Mr. Valentine, Mrs. Detrow, Mrs. Tunnell, Mr. Miller.

City Engineer, Shane Kremser, provided testimony.

Mr. Kremser stated this is an annual material bids ordinance.

Mr. Kremser stated this ordinance allows the City to advertise and bid and for the Mayor to enter into contracts for successful bids.

Mr. Kremser stated this is for annual operating materials and supplies for all the departments.

Mr. Kremser stated this is a remainder of material and supplies that we bid out every year.

Mr. Kremser stated the contract extends into next year and this is typically how it's done.

Mr. Wolfe stated the question has come up that when they authorize these contracts every year is it just for that calendar year.

Mr. Wolfe asked if the terms expire on December 31st of that year.

Mr. Wolfe stated that there is the need to buy some of these materials in the interim period so this change of date is a reflection of that.

Mr. Wolfe stated this carries over into two budget years and that is something we need to think about.

Mr. Wolfe asked if we wanted these provisions to be for the calendar year or do we want to carry them over for a full year.

Mr. Wolfe stated it also depends on what the contractors want to do.

Mr. Wolfe stated when this came up that we needed to look at how the contract was worded.

Mr. Wolfe stated he doesn't know if the contract has a specific date or not.

Mr. Kremser stated it has a specific date.

Mr. Wolfe stated then we need to get the ordinance and contracts together to make them consistent.

Mr. Wolfe stated we have to remember there is an overlapping of budget years that could have an effect on the budget, especially if there is a major purchase under one of these contracts.

Mrs. Tunnell asked since we have not passed the budget yet for this year can we authorize this.

Mr. Wolfe said this is to advertise to get the bids to enter into contracts and we haven't gotten the bids back.

Mr. Wolfe stated perhaps by April 1st we will have entered into a budget.

Mr. Kremser stated that is why we have started this process.

Mr. Wolfe stated we have to be careful in the first quarter of the year before appropriations are passed that we don't have anything other than ordinary expenses under the temporary appropriations.

Mr. Paxton stated that is correct.

Mayor Stewart stated that presents a problem.

Mayor Stewart stated the problem is that we would not be able to process a purchase order from the middle of December until we pass the budget.

Mayor Stewart stated for example we buy a quarter of million dollars of lime every year and you divide that by twelve and we are spending twenty thousand dollars a month on lime.

Mayor Stewart stated as far as stocking that for a six week time frame, which is when we stop purchasing until we get the budget passed.

Mayor Stewart asked Mr. Klinger if we have that stock pile.

Mr. Klinger stated we receive a truck every three days.

Mayor Stewart stated we are buying it against the contract we already have.

Mayor Stewart asked if that requires special revisions in the budget.

Mr. Wolfe asked if that is based on calendar year appropriations.

Mr. Paxton stated the purchase of lime comes on a regular basis and is something we need to operate.

Mr. Paxton stated we have already this year purchased several thousands of dollars in lime.

Mr. Paxton stated even as this morning we have issued purchase orders for expenses for the Water Department.

Mr. Paxton stated it becomes more of an issue when preparing the budget and the Directors need to keep that in mind if they are already spending into their 2016 appropriations.

Mr. Wolfe stated in that sense it would be an ordinary expense.

Mr. Paxton agreed and said it would be an ordinary operating expense.

Mr. Paxton stated this would be an ordinary operational expense for the Water Department.

Mr. Wolfe stated putting April 1st to April 1st in the contract is better.

Mr. Wolfe stated the problem is it will be over two budget years.

Mayor Stewart stated it's not an annual purchase; it goes on year after year.

Mayor Stewart asked where you put that block of money.

Mr. Wolfe stated some materials could be on an as needed basis so it could make a difference in what materials we are talking about.

Mr. Paxton stated he feels the important issue is to put the date on the contract of when it expires.

Mr. Paxton stated the contractors need to understand they have that contract until a specific date.

Mr. Kremser stated the contracts all have dates but they have had some problems with that because some of the supplies need to be tested.

Mayor Stewart stated the bottom line is these dates are ok and it is our obligation to make sure the contracts match the ordinance.

Mr. Paxton stated he believes that would be correct.

Mr. Kremser stated that is why he took the contract date and put it in the ordinance.

Mr. Kremser stated in the past it was not in the ordinance but it has always been in the contract.

There were no additional comments.

Moved by Mrs. Tunnell and seconded by Mr. Valentine that the Ordinance be passed on the first reading.

Ayes: Mr. Valentine, Mrs. Detrow, Mrs. Tunnell, Mr. Miller, Mr. Fishpaw.

Moved by Mrs. Detrow and seconded by Mrs. Tunnell that the rules requiring the reading on three separate days be suspended and that the Ordinance be passed on the second and third readings.

Ayes: Mrs. Detrow, Mrs. Tunnell, Mr. Miller, Mr. Fishpaw, Mr. Valentine.

Moved by Mr. Fishpaw and seconded by Mrs. Tunnell that the Ordinance be passed.

Ayes: Mr. Miller, Mr. Fishpaw, Mr. Valentine, Mrs. Detrow, Mrs. Tunnell.

Finance Director, Larry Paxton, provided testimony.

Mr. Paxton stated this is an ordinance authorizing payment of expenditures to vendors.

Mr. Paxton stated the vendors invoices were provided to the City before purchase orders were written.

Mr. Paxton stated these are all standard operating expenditures.

Mr. Wolfe stated he just told her why.
